

Tenth Annual University of Arizona Advanced Placement Calculus Practice Exam

The Center for Recruitment and Retention and the Mathematics Department at the University of Arizona will again be hosting an **Advanced Placement Calculus Practice Exam (AB and BC)**. This year the Practice Exam will be held on Saturday, April 29th, 2017, on the university campus. As always, we would like to see as many schools as possible participating!

The practice exam will be given in the morning and, after a short lunch, we will review the solutions and grading standards of the Free Response section in the afternoon. Since we will grade the Multiple Choice portion of the exam while the students are working on the Free Response problems, every student will know their grade (1-5) on the exam when the afternoon session is completed. Once the practice exam has begun, teachers will meet to share ideas.

We will be using the 2014 Calculus Multiple Choice Exam (AB and BC), which we used last year, and the 2016 Free Response Exam (AB and BC) for this practice exam. So, as you prepare your students for this test, **DO NOT USE** these exams in your review sessions.

Students from schools partnered with CRR (see below) pay a participation fee of \$5 each.

Students from schools not partnered with CRR pay a participation fee of \$25 each.

Visit our webpage for the registration forms.
